+91 7974057465 | shraddhabhadoria95@gmail.com | linkedin.com/shradha-s-bhadoria | github.com/shraddhaHS | Portfolio

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), TypeScript, Python, SQL, HTML/CSS

Frameworks & Libraries: React.js, Next.js, Three.js, Redux, Zustand, Socket.io, Node.js, Express.js, MongoDB, TailwindCSS

Tools & Platforms: Git, GitHub, Bitbucket, Docker, VS Code, Jupyter, Postman, Figma, Adobe XD

EXPERIENCE

Infomatix Web Technologies LLP

Feb 2023 – Jul 2023

Web Developer

Remote

- Led development of 18 CRM modules using React.js and Bootstrap, optimizing frontend performance and reducing page load time significantly across 5+ breakpoints, which accelerated delivery by 28% and contributed to securing post-launch funding.
- Developed 10 feature-rich Hospital ERP modules (Doctor Reports, Patient Profiles, Appointments, QR Registrations, e-Prescriptions), improving admin efficiency by 35% and reducing manual entries.
- Built 8+ reusable survey and tracking components with real-time validation and conditional rendering, enhancing data submission and improving efficiency in a case management system.
- Modularized frontend with 40 reusable components and optimized assets, boosting performance by 33%.
- Integrated REST APIs into React modules using Axios for CRUD operations, handling async data flows and error states across multiple CRM and ERP features.

Virtuoso Apps Pvt Ltd

Nov 2021 – Dec 2021

Web Developer

Remote

- Implemented React.js UI features using functional components and JSX across 8+ pages, improving layout consistency and responsiveness across devices.
- Refactored frontend code into 15+ reusable React components, reducing duplication and improving code maintainability.
- Worked on incremental UI updates in React, resolving layout and styling issues and ensuring components rendered correctly across common screen sizes.

PROJECTS

Studynotion: Full-Stack LMS Platform | React.js, Node.js, Express.js, MongoDB

[Link](#)

- Designed a scalable LMS with React.js, Node.js, and MongoDB, supporting 5000+ users with secure course access and real-time progress tracking.
- Architected 36 REST APIs with JWT auth and RBAC, enhancing backend security and scalability.
- Integrated Razorpay, Cloudinary, and Nodemailer to streamline payments, media management, and email notifications, automating workflows by 55%.
- Followed MVC architecture and applied reusable middleware logic, improving backend maintainability and reducing code redundancy by 25%.

ChatterBox: Real-Time Chat App | React.js, Node.js, Express.js, MongoDB, Socket.io

[Link](#)

- Constructed a real-time chat app handling 50+ concurrent users with < 200ms message latency using Socket.io and React.js.
- Implemented secure user auth, responsive UI, and 30+ customizable themes using Tailwind CSS and Daisy UI.
- Optimized state management with Zustand and leveraged MongoDB to handle real-time storage for 100K+ chat messages.

AI Mock Interview | Next.js, PostgreSQL, Gemini LLM, Clerk Auth

[Link](#)

- Engineered an AI-powered mock interview platform using Google's Gemini LLM, generating role-specific questions with 90% contextual accuracy across 10+ domains and 3 seniority levels.
- Developed real-time simulations with webcam access, leveraging speech-to-text pipelines to record, transcribe, and analyze user responses dynamically.
- Managed user data with PostgreSQL and Drizzle ORM, storing 500+ interview sessions with searchable history.
- Secured the platform with Clerk Auth, enabling real-time authentication and privacy for 100+ registered users.

EDUCATION

University Institute of Technology, RGPV

Bachelor of Technology, Information Technology

Bhopal, MP

2024
